

SYKES FABRICATION LTD

Buyer specification checklist

A practical brief for your next container purchase.

Your operation

Intended use and material; loading method; existing container or reference drawing.

Handling and dimensions

Equipment interface; external dimensions with units; clearances; technical contact for confirmation.

Format and capacity

Open, enclosed, drop-door or bespoke. Nominal capacity alone does not confirm suitability.

Construction and finish

Ask which base, rail and reinforcement details apply. Confirm identification, reflective markers and any options.

Quantities

List each size and format separately, with its quantity and any different requirements.

Delivery

Postcode and receiving address; access and unloading arrangements; timing; multiple destinations.

Documents

Attach drawings, photos or a schedule to your email. Identify the drawing revision.

Commercial confirmation

Ask for product, delivery and extras to be identified. Confirm availability, terms and any warranty in the quotation.
